# One Hour Hamburger Buns

Nothing beats homemade hamburger buns. Made a dozen buns quicker than you can run to the store and buy a pack.

It only takes 20 minutes to mix and form these hamburger buns. You can have these on your table in under an hour.

Store buns never come topped the way you like them, so now is your chance. Sesame seeds, poppy seeds, oatmeal flakes, wheat germ, pumpkin seeds, sunflower seeds you name it the choice is all yours.
