Make you like a little easier and measure out the ingredients into a few plastic bags labeled with directions and store in your pantry for a few months (or the freezer) and have your next pizza crust mix ready to go. Just add oil and water and you are good to go.

Think about it, how much does one and a third cups of flour really cost, that is the bulk of the ingredients.

Enjoy and pass it along and tell people out our blog.

Have a Happy New Year's and welcome in 2015 with me!
